Course Description Principles of Plant Science and Hydroculture focuses on essential knowledge and skills related to the science of plant growth. This course covers principles of plant health, growth, reproduction, and biotechnology, as well as fundamental principles of hydroponics and aquaponics. Upon completion of this course, proficient students will be prepared for more advanced coursework in horticulture science.

Goals and Objectives:

- Develop good habits, attitudes, judgments, and the ability to participate with others in a work environment
- Create an understanding for the importance of the agriculture industry in its entirety
- Develop student comprehension of science and mathematics content through application in agriculture
- Create a desire in students to seek additional skills and knowledge in a given area of interest

Textbook: *icev, google classroom*

Google Classroom

1st period- vxksxzt

8th period- 3pz4y6x

90-100 = A; 80-89 = B; 70-79 = C; 60-69 = D; 0-59 = F

Final Exam Policy

--As daily attendance at school is critical for academic success, Cosby High School has added an incentive to the academic program to reward individual daily attendance.

All **non-EOC teachers** are required to administer a comprehensive final exam that assesses the mastery of standards taught throughout the semester.

- **EOC teachers** are required to administer a graded quiz or test during the final exam blocks on the dates listed above. EOC quick scores are used in the final exam column and weighted as the final exam. The graded quiz

Midterm-December, Final- May
